A FEW QUESTIONS?

Why did you throw that lamp away?
Was it because you couldn't find a burner?

Was it because you couldn't find a wick?

Was it because you couldn't find a chimney?

Was it because the collar came off?
If it was for any of these causes, don't throw another lamp away, but bring it to us and we will fix it for you. Why we will even fix your Center Draught lamp, so you can burn either gas or electricity in it.

RECORD DAY

In Many Particulars on the New York Stock Exchange.

By Associated Press.
New York, April 3.—Today was a record day in many particulars on the New York stock exchange. The extent and variety of the price movement has rarely if ever equaled in a bull market, although the crumbling of prices in a panic has occasionally caused as wide variations. All ordinary standards fall in the computation of such a market. The forces in operation were titanic in their power, and effect. Speculative leaders bought with unsparing hand through the stunning avalanche of offerings which was hurled upon them on the advances and lavished their resources apparently with the abiding conviction that the astounding rise in prices was destined to go indefinitely further.

The public followed eagerly any show of strength at any point on the list. Dealings were heavily predominant in a limited number of stocks, and general speculation was decidedly influenced by the movements of these. Two stocks stand out conspicuously even in this list, the price movement in which was astonishing throughout. There were kindred movements to these elsewhere, both amongst the Grangers and Coalers.

Dealings in bonds was large and irregular. U. S. new 4s advanced 1/4. Old 4s coupon declined 1/4 per cent.
